MEMORANDUM FOR: Executive Director

FROM: David P. Doherty
General Counsel

SUBJECT: Reorganization of the Office of General
Counsel

1. This is to formally confirm your approval of the reorganization of the Office of General Counsel, as we have discussed, which was initiated by [redacted] some time before he left. We want to do this to improve our management structure by expanding the number of Associate Deputy General Counsel positions to serve directly the Deputy General Counsel and me as OGC senior attorney managers. These officers, together with the Deputy General Counsel and me, will serve as the Management Committee for the Office. There will be an Associate Deputy General Counsel for each of the following areas:

STAT

- a. Administrative Law and Management Support
- b. Operations Support and Procurement Law
- c. Intelligence Law and Special Studies
- d. Litigation and Community Affairs

2. The officers filling these positions will not have formal deputies, but will be supported by division chiefs who will report directly to them. One division chief in each area will be designated to act for his respective Associate Deputy in the absence of that officer. The overall reorganizational structure and the proposed incumbents are shown in the attachment.
